

ChatGPT in Education: Myths vs. Facts

Myth: ChatGPT will replace teachers.

Fact: ChatGPT supports teachers by saving time on prep - not replacing instruction or empathy.

Myth: Students will just use it to cheat.

Fact: Only if misused. Teachers can guide students to use ChatGPT for brainstorming, drafting, and feedback.

Myth: ChatGPT isn't safe for kids.

Fact: With proper supervision and teacher-set prompts, ChatGPT is a classroom-safe tool.

Myth: It gives wrong answers.

Fact: Sometimes - like any tool. Always verify content in factual subjects like science or history.

Myth: It's only for tech-savvy teachers.

Fact: Not true. If you can type a question, you can use ChatGPT. No coding needed.
